

CIT Movie and TV Clips

During the summer of 2015, Michela Corsi, a Northeast Ohio Medical University student, researched movie and TV clips to enhance CIT training and other training formats related to mental illness awareness. Many of these clips can be found on YouTube; however, because the CJ CCoE cannot verify ownership or authenticity of these YouTube postings, we are providing clock counter times for the clips, not internet links. A list of YouTube links are available upon request.

*Full movies or TV seasons are available through the CJ CCoE Lending Library that you may borrow at any time. If you are interested in borrowing these items, please contact Haley Farver at hdurig@neomed.edu or 330-325-6815.
