RE: Important Notice about Your Creditable Prescription Drug Coverage and Medicare

Dear Member,

Please read this letter carefully and keep it where you can easily refer back to it. This notice has information about your current prescription coverage with Northeast Ohio Medical University (NEOMED) and your options under Medicare's prescription drug coverage. This information can help you decide whether or not you want to join a Medicare drug plan. If you are considering joining, you should compare your current coverage, including which drugs are covered, with the coverage and costs of plans offering Medicare prescription drug coverage in your area. Information about where you can get help to make decisions about your prescription drug coverage is included at the end of this notice.

Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You are eligible for this coverage if you join a Medicare prescription drug plan or join a Medicare Advantage plan (such as an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least the standard level of coverage set by Medicare. Some plans might also offer more coverage for a higher monthly premium.

It has been determined that your prescription drug benefit is, on average for all plan participants, expected to pay out as much as standard Medicare prescription drug coverage pays, and is this considered "Creditable Coverage."

Because your existing coverage is, on average, at least as good as standard Medicare prescription drug coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.

You can join a Medicare drug plan when you first become eligible for Medicare and each year thereafter from October 15 through December 7. This means you may have to wait to join a Medicare drug plan. If you lose creditable prescription drug coverage through no fault of your own, you will be eligible for a two-month Special Enrollment Period (SEP) to join a Medicare Part D drug plan.

If you decide to join a Medicare drug plan, your NEOMED prescription drug benefit may be affected.

If you do decide to join a Medicare drug plan and drop your current coverage, be aware that you and your dependents may not be able to get this coverage back.

You should also know that if you drop or lose your coverage and don't join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (a penalty) to join a Medicare drug plan later.

If you go 63 continuous days or longer without prescription drug coverage that is at least as good as Medicare's prescription drug coverage, your monthly premium may go up by at least 1 percent of the base beneficiary premium per month for every month that you did not have that coverage. For

example, if you go 19 months without coverage, your premium could consistently be at least 19 percent higher than the base beneficiary premium. You may have to pay this higher premium (penalty) as long as you have Medicare prescription drug coverage. In addition, you might have to wait until the following October to join.
