After registering, you will receive a confirmation email containing information about joining the webinar. Application for CE credits is pending. This webinar will be recorded, and an archive will be sent out to all registrants and uploaded for public access.

"Pioneering a Path Forward"

Engaging and Understanding the Vitality of Needs for Latinx Students

The **Ohio Program for Campus Safety and Mental Health** invites you to join us for a panel presentation with Magda Gomez, Ed.D., Executive Director Diversity & Inclusion, *Cuyahoga Community College*, Jessica Cartagena, M.B.A., Program Manager, Hispanic Council, **Cuyahoga Community College** (Tri-C) Alejandro Martinez Jr., MSW, LSW Clinical Social Worker, **Teleayuda Ohio** and Iris Mirelez, Assistant Director of Student Diversity, **Northeast Ohio Medical University** (NEOMED), as we discuss engaging and understanding the mental health needs of Latinx students.

Hispanic enrollment at institutions of higher education is expected to exceed 4.1 million students nationwide by 2026*, yet the ability to access mental health services, low utilization and gaps in prevention and early intervention persists. With the anticipation that Latinx students are surpassing the growth rate of any other racial-ethnic group, it is ever more vital that the unmet needs and barriers for accessing services including outreach and educational strategies are incorporated into best practices and concepts to combat stigma amongst this community.
